DIFFERENTIAL EQUATIONS

Volume 4, Numbers 1-12, 1968

DIFFERENTIAL EQUATIONS
Volume 4, Numbers 1-12, 1968
(A translation of Differentsial'nye Uravneniya)

Eng./Russ.

Volume 4, Number 1 January, 1968

Conditions for the Hölder Continuity of Bounded Generalized Solutions of Quasilinear Elliptic Equations—A. Kh. Gudiev	1	3
Some Boundary Value Problems for the Darboux Equation—V. I. Evsin	8	16
Stabilization of Solutions of Boundary Value Problems for a Second Order Parabolic Equation with One Space Variable—T. I. Zelenyak	17	34
On a Frankl Problem for a Nonlinear Equation of Mixed Type—I. V. Maiorov	23	46
A Three-Dimensional Analog of Gellerstedt's Problem—A. M. Nakhushev	26	52
A Functional Method of Solving Tricomi's Problem—V. I. Pashkovskii	32	63
Some Conditions for Uniqueness of the Solution of the Exterior Inverse Problem of Potential Theory with a Variable Density—A. I. Prilepko	37	74
The One-Dimensional Inverse Problem for the Telegraph Equation—V. G. Romanov	44	87
Some Cases of Indeterminacy for Problems Involving Directional Derivatives —A. I. Yanushauskas	52	102
Harnack's Inequality for the Generalized Solutions of Degenerate Second Order Elliptic Equations—L. P. Kuptsov	56	110
The Fredholm Nature of Some Boundary Value Problems for the Equation in a Mixed Domain—I. M. Petrushko	63	123
Unimprovability of Error Estimate for a Method of Refinements by Higher Order Differences in a Class of Solutions of Poisson Equations—E. A. Volkov	70	136
A Problem of A. V. Bitsadze for Degenerate Elliptic Equations —G. N. Yakovlev	76	147
Approximate Solution of a Dirichlet Problem by the Method of Fictitious Regions —V. D. Kopchenov	79	151
Double Expansion Into Series of Eigenfunctions of a Certain Nonself-Adjoint Boundary-Value Problem—A. O. Kravitskii	86	165
BRIEF COMMUNICATION		
Analysis of the Stability of Strong Discontinuities in Gas Dynamics—S. K. Aslanov	93	178
On the Sixtieth Birthday of Il'ya Nestorovich Vekua—A. V. Bitsadze	94	180

Volume 4, Number 2 February, 1968

Local Topological Equivalents of Systems of Differential Equations —L. E. Reizin	99	199
Investigation of the Motion of a Spherical Pendulum in the presence of a Switching Rotating Force—Yu. F. Shain	108	215
Certain Systems with a Transformed Argument in the Case When the Transformation of the Argument Depends on Time and on the Solution —V. P. Skripnik	114	225
The C-N Study of Systems Which are Close to Homogeneous Ones —Yu. V. Malyshev	118	233
On a Class of Solutions of Differential Equations Which are Stable in the Sense of Poisson—B. A. Shcherbakov	122	238

On the Theory of Linear Stochastic Differential Equations with Nonmarkov Solutions —Yu. L. Rabotnikov 125 244
The Existence and Uniqueness of the Solution of Boundary Value Problems for Ordinary Differential Equations—I. N. Inozemtseva 130 252
Unique Solvability of the de la Vallée Poussin Problem—V. V. Ostroumov 135 261
Preservation of the Sign of the Green's Function for the Periodic Boundary Value Problem for a Second-Order Difference Equation—N. N. Yuberev 140 269
Infinite Systems of Linear Differential Equations—I. D. Shinderman 144 276
Singular Points for Three-Dimensional Systems of Equations Involving Total Derivatives in Four-Dimensional Space—R. G. Dymanov 148 283
Some Features of Necessary and Sufficient Conditions for a Minimum in Variational Problems—G. S. Rozenberg 152 290
The Generalized Abel Equation and Fractional Integration Operators —S. G. Samko 157 298
Noether's Theory for Abel's Generalized Integral Equation—S. G. Samko 167 315
A Tauberian Theorem—S. M. Dolganova 174 327
Integral Equations with a Logarithmic Kernel—F. V. Chumakov 179 336
The Smoothness of Heat Potentials. Part V. The Heat Potentials U, V and W on Surfaces of the Type $\Pi^{m+1,\alpha,\alpha/2}_{2m+1,1,(1+\alpha)/2}$ and $\Pi^{m+1,1,(1+\alpha)/2}_{2m+3,\alpha,\alpha/2}$ —L. I. Kamynin 185 347

BRIEF COMMUNICATIONS
On the Connection between Boundedness and Stability of Solutions of Linear Systems with an Infinite Number of Degrees of Freedom—A. M. Zverkin 196 366
On a Certain Inequality—V. N. Laptinskii 197 368
Sufficient Conditions for Regularity and Reducibility of Quasiperiodic Systems —I. I. Martynov 198 370
Theorems in the Qualitative Theory of Partial Difference Equations —L. M. Kuks and A. A. Svirchevskii 200 375

Volume 4, Number 3 March, 1968

Proof of the Existence of Irregular Systems of Linear Differential Equations with Almost Periodic Coefficients—V. M. Millionshchikov 203 391
Investigation of the Asymptotic Properties of a Differential Equation Encountered in Certain Problems of Kinetics—A. B. Vasil'eva 206 397
Linear Optimal Processes under Unbounded Controls. I—Yu. P. Krivenkov 213 409
Certain Analytic Features of the Solution of a Differential Equation in the Case of a Focus—A. N. Erugin 220 423
Asymptotic Expansion of Solutions of a Second-Order Linear Ordinary Differential Equation with a Transition Point Depending on a Parameter —V. V. Pukhnachev 223 429
Algebraic Reducibility of Systems of Linear Differential Equations. I —A. K. Lopatin 230 439
A Criterion for Stability in the Sense of Lyapunov—Wang Tan Chih 234 446
Some Bounds in the Method of Averaging for Multifrequency Systems of Ordinary Differential Equations—E. A. Grebenikov 241 459
The Completeness of a System of Floquet Type Solutions for Equations with Retardations—A. M. Zverkin 249 474
Solutions of the Briot and Bouquet Equation with Diverging Argument —E. I. Grudo 252 479
The Asymptotic Solution of a Problem for a Nonlinear Integro-Differential Equation —V. F. Butuzov 258 491

Eng./Russ.

The Application of the Principle of the Maximum to an Elliptic Difference Equation —A. L. Teptin 267 508
The Summation of Expansions in Eigenvectors of Certain Non-Selfconjugate Differential Operators—S. M. Dolganova 272 518
A Class of Solutions of a System of Integro-Differential Equations —A. A. Mirolyubov 276 526
A Problem in Heat Transfer Theory—V. V. Shapovalov 280 533
Solutions of Certain Differential Equations in Classes of Functions Which are Quasilinear with Respect to Differential Operators—V. G. Khryptun 284 539

BRIEF COMMUNICATIONS

Construction of the Set of Initial Points for the Integral Curves Lying in a Half-Plane Corresponding to a Linear Hamiltonian System of Two Equations with Periodic Coefficients—A. D. Myshkis and A. A. Sharshanov 289 547
A New Proof of Instability of the Characteristic Exponents of a Single Regular System —Kh. Yu. Kurdanov 291 551
The Convergence of Galerkin's Method for the Cauchy Problem for a System of Nonlinear Hyperbolic Equation with Two Independent Variables —E. I. Kucherenko 292 553

LETTER TO THE EDITORS

Correction to V. B. Ryvkin's Article, "Structure of Solutions of Elliptically Parabolic Equations with One Separable Variable" (Differentsial'nye Uravneniya [Differential Equations], Vol. 2, No. 12, pp. 1649-1654, 1966) 293 556

Volume 4, Number 4 April, 1968

Orbital Stability of Bounded Solutions of Autonomous Systems. I. —B. P. Demidovich 295 575
Some Remarks on Solutions of the Equation $u'' + a(t) f(u) = 0$ —D. V. Izyumova and I. T. Kiguradze 302 589
Controllability of Autonomous Systems—N. N. Petrov 311 606
Asymptotic Stability in the Large for a Certain Nonlinear System —A. R. Efendiev and M. A. Balitinov 318 618
Theorems on Instability of Solutions of an n-th Order Linear Homogeneous Differential Equation with Periodic Coefficients—G. A. Los 322 625
Some Problems of Stability in the Large for Constantly Acting Perturbations in Normed Linear Spaces—S. I. Gorshin 325 631
Certain Criteria for Existence and Absence of Closed Trajectories of a Certain System of Differential Equations—N. I. Avdonin 329 639
Singular Systems with a Small Parameter in Front of the Derivative —V. P. Skripnik 333 646
Asymptotic Properties of Solutions of Linear Differential Equations with Lagging Argument—V. B. Uvarov 340 659
Probabilistic Estimates for Solutions of a Linear System of Differential Equations with Stochastic Coefficients—N. F. Kirichenko and A. A. Martynyuk . . 343 664
Error Estimates in the Method of Successive Approximations—V. E. Popovich 345 668
On the Problem of Existence of Stochastic Periodic Regimes of Linear Stochastic Difference and Differential Equations—V. I. Grishakov and S. N. Shimanov 349 675
The Integral Inequality Problem for Fredholm Equation Whose Right Side Is a Discontinuous Operator—R. K. Ragimkhanov 352 681
Recurrence of Points and Domains in Partially Ordered Dynamical Systems —A. M. Stakhi 358 693

Construction of the Sequence of Coordinate Functions for Solution of the Dirichlet and Neumann Problems for Domains of Complex Form —G. P. Man'ko, V. L. Rvachev, and L. I. Shklyarov 363 702
On the Limiting Amplitude Principle—A. G. Ramm 370 714
On a Model System of Equations of One-Dimensional Gas Motion—Ya. I. Kanel 374 721
Numerical Solution of Certain Incorrectly Posed Problems by Means of the Method of Quasisolutions—O. A. Liskovets 381 735
Maxwell's Equation, and Functionally Invariant Solutions of the Wave Equation —M. S. Shneerson 386 743

Volume 4, Number 5 May, 1968

A Property of Game-Theory Encounter—N. N. Krasovskii 395 767
Regularization of a Problem of Encounter of Motions—A. I. Subbotin 402 779
Invariant Sets of Differential Systems—J. Kurzweil 406 785
Application of the Theory of Optimal Processes to the Study of Production Models. II —Yu. P. Krivenkov 413 798
A Method of Investigating Limit Cycles—M. V. Dolov 421 812
The Isochronicity of a System of Differential Equations—V. I. Chemodanov 426 821
A Boundary Value Problem for a System of Ordinary Differential Equations —V. S. Blinchevskii 431 830
The Algebraic Reducibility of Systems of Linear Differential Equations in a Finite Interval of the Independent Variable. II—A. K. Lopatin 436 839
Oscillatory Nature and Boundedness of the Solutions of a Second Order Nonlinear Equation with a Factored Right Side—I. V. Kamenev 439 845
The Solvability of Boundary Value Problems for Ordinary Differential Equations with Discontinuous Right Hand Side—R. K. Ragimkhanov 442 850
Conditional Stability in a Given Interval of Time—V. I. Zhukovskii 446 858
The Problem of the Stability of the Oscillations of Quasi-Linear Autonomous Systems with Lag—K. M. Tsoi 451 868
Investigation of a System of Differential-Functional Equations—V. R. Petukhov 455 875
The Smoothness of Heat Potantials. V. The Heat Potentials U, V, and W on Surfaces of Type $\Lambda^{m+1,\ \alpha,\ \alpha/2}_{2m+1,\ 1,\ (1+\alpha)/2}$ and $\Lambda^{m+1,\ 1,\ (1+\alpha)/2}_{2m+2,\ \alpha,\ \alpha/2}$ —L. I. Kamynin 459 881
Application of the Contour Integral Method to Solve a Mixed Problem for a Parabolic System—N. M. Mamedov 466 896
On the Asymptotic Solution of the Dirichlet Problem for Second and Fourth Order Equations—A. I. Kochura 472 907
The Method of Line Collocation—Yu. P. Yartsev 481 925
Nonlinear Vibrations of Thin Membranes Allowing for Rotational Momentum —N. F. Morozov 485 932
A Method of Solution of Linear Integral Equations of the Second Kind —A. F. Kalaida and V. Yu. Sereda 488 938

BRIEF COMMUNICATIONS

Solution of the Center-and-Focus Problem in One Case—A. P. Sadovskii 491 943
Linear Asymptotic Equilibrium—Nguen The Hoan 492 946
A Class of Irregular Systems—I. N. Blinov 494 949

Volume 4, Number 6 June, 1968

The Maximum Principle for Pontryagin's Extremals—R. Gabasov and F. M. Kirillova . 497 963

	Eng./Russ.	
Asymptotic Stability of the Zero Solution of a Nonautonomous System of Two Differential Equations. II.–G. S. Krechetov	503	973
Moving Singularities of a System of Two Differential Equations–S. G. Kondratenya and A. I. Yablonskii	508	983
Moving Singular Points of the Solutions of Certain Systems of Ordinary Differential Equations–S. G. Kondratenya	513	991
The Optimality of Singular Controls–R. Gabasov	518	1000
The Stability of Singular Cycles–L. A. Cherkas	524	1012
Stability in Critical Cases–A. P. Sadovskii	527	1018
Lyapunov Functions and the Continuation of Solutions of Differential Equations –A. A. Yushchenko	529	1022
Behavior of the Integral Curves of a System of Two Differential Equations –V. V. Amel'kin	536	1035
A Differential Equation for Non-Linear Oscillations–O. A. Kononova	540	1043
On the Green's Matrix for a Periodic Boundary-Value Problem for a System of Two Second-Order Linear Differential Equations–B. M. Arkhilov	546	1055
On the Lagrange Differential Equation–M. V. Zaretskii	552	1065
Expansion of Solutions of Higher-Dimensional Volterra Integral Equations in the Neighborhood of Singular Points–E. I. Grudo	555	1071
Some New Boundary Value Problems for a Class of Partial Differential Equations. Part I.–N. I. Brish and N. I. Yurchuk	560	1081
The Application of the Method of the Contour Integral to the Solution of a Problem in the Transverse Oscillations of a Viscous-Elastic Compound Bar–S. I. Gaiduk	571	1102
The Index and Normal Solvability of Integro-Differential Operators–Yu. K. Lando	577	1112
The Field of a Linear Source in a "Curvilinear" Array of a Finite Number of Parallel Conductors–E. A. Ivanov	585	1127
The Regularization of Linear Equations in Banach Spaces–O. A. Liskovets	590	1136
Application of the Method of Orthogonal Mappings to Boundary-Value Problems with Inseparable Conditions for Systems of Differential Equations–P. I. Monastyrnyi	593	1140
BRIEF COMMUNICATIONS		
On a Set of Lower Exponents of Positive Measure–N. A. Izobov	597	1147
One Class of Dynamics Systems with Two Closed Algebraic Trajectories –P. S. Belevets	598	1150
A Class of Differential Systems with Elementary Solutions–V. I. Mironenko	600	1154
The Absence of Two-Sided Points of Attraction–N. N. Ladis	602	1157
Forced Slipping in the Method of Differential Descent–S. M. Gerashchenko	602	1158

Volume 4, Number 7 July, 1968

The Existence of a Solution to a Nonlinear Boundary Value Problem for an Ordinary n-th Order Differential Equation–A. Ya. Lepin and A. D. Myshkis	605	1171
Asymptotic Properties of Solutions of Ordinary First-Order Differential Equations –A. V. Kostin	613	1184
Extending Solutions of Ordinary Differential Equations–S. M. Lozinskii	620	1196
The Existence and the Construction of Periodic Solutions of Time-Lag Systems Close to Lyapunov Systems–A. F. Kleimenov and S. N. Shimanov	622	1199
Attainability of the Central Exponent–R. E. Vinograd	629	1212
Local Controllability of Autonomous Systems–N. N. Petrov	632	1218
Oscillations of Nonautonomous Systems at Resonance in the Singular Case –Nguyen Van Dao	640	1233
Integrability in Quadratures of Some Systems of Linear Differential Equations –A. G. Aslanyan and V. L. Burenkov	644	1241

Eng./Russ.

Asymptotic Expansion in Powers of the Lag of the Periodic Solution of an Equation of Neutral Type with a Small Lag—V. I. Rozkhov 649 1250
Certain Tests for the Existence of Bounded Solutions of Systems of Differential Equations—N. V. Medvedev 653 1258
A Bound for the Polyharmonic Function and Its Derivatives Near the Boundary of a Domain. I—A. S. Fokht 657 1265
Problems for the Heat Equation with Mixed Boundary Conditions—O. Napetvaridze . . . 667 1283
On the Theory of Multidimensional Differential Equations with Constant Coefficients —A. I. Perov 671 1289
A Variant of Chaplygin's Method for an Abstract Parabolic Equation—S. Ashirov 676 1299
Reducing the Fundamental Boundary-Value Problems of the Theory of Flat Shells to Regular Integral Equations—S. P. Gavelya 679 1304
Solution of the Gauchy Problem for One Class of Integro-Differential Equations with Analytical Nonlinearities—N. A. Sidorov 682 1309
Convergence and Error Estimates for the Straight-Line Method for Certain Problems of Mathematical Physics—V. N. Abrashin 686 1317
The Goursat Problem for Second Order Hyperbolic Equations of a Special Kind —N. I. Yurchuk 694 1333

BRIEF COMMUNICATIONS
On Elliptical Equations in a Banach Space—P. E. Sobolevskii 701 1346

Volume 4, Number 8 August, 1968

Orbital Stability of Bounded Solutions of an Autonomous System. II. —B. P. Demidovich 703 1359
The Comparison Principle with a Lyapunov Vector-Function. I —V. M. Matrosov 710 1374
Convergence of Some Iteration Processes for Solving Differential Equations —Ya. D. Mamedov 718 1387
The Approximate Determination of Periodic Regimes in High-Frequency Processes —A. E. Gel'man 723 1396
Determination of the Reaction of a Linear Nonstationary Transmission System to a Locally Summable Disturbance—S. T. Zavalishchin 727 1404
Solutions of the Fifth Equation of Painlevé—N. A. Lukashevich 732 1413
The Algebraic Integrals of a Certain Differential Equation—T. A. Druzhkova 736 1421
Number of Periodic Solutions of a First Order Differential Equation with a Polynomial Right Side—V. M. Lebedeva 740 1428
Existence and Stability of Periodic Solutions for Systems with Delay which Approach the Lyapunov System—A. F. Kleimenov 743 1433
Transformation Operator for the Sequence of Solutions of One Class of Linear Second-Order Differential Equations—V. V. Ryndina 747 1441
Stability in the Large of a Second-Order System—P. S. Kultyshev 753 1452
A Class of Hypergeometric Horn Functions—M. B. Kapilevich 760 1465
Some New Boundary Value Problems for a Form of Partial Differential Equations. II —N. I. Brish and N. I. Yurchuk 770 1484
Direct Methods of Qualitative Spectral Analysis of a Non-Self-Adjoint System of First-Order Differential Equations. I—V. V. Martynov 776 1494
A Bound for the Polyharmonic Function and Its Derivatives near the Boundary of a Domain. II—A. S. Fokht 784 1509
An Analog of the Inverse Problem in the Theory of Scattering for a Non-Self-Conjugate Operator. I—V. A. Blashchak 789 1519

BRIEF COMMUNICATIONS
The Stability of the Solutions of One Class of Nonlinear Differential Equation Systems —R. A. Sokolov 797 1534
Normal Fundamental System of Solutions of a Linear Homogeneous Differential Equation—G. K. Gemidzhiev 798 1536

Volume 4, Number 9 September, 1968

Recurrent and Almost Periodic Limit Solutions of Nonautonomous Systems —V. M. Millionshchikov 799 1555
Number of Frommer Substitutions Sufficient for Revealing All the TO-Curves of the Equation X(x, y)dy = Y(x, y)dx—A. F. Andreev and T. V. Stepanova 802 1560
Contribution to the Theory of Controllability of Dynamic Systems—R. Gabasov 810 1574
Degenerate Linear Differential Equations. I—V. P. Glushko. 815 1584
Contribution to the Theory of Linear Equations with Periodic Quasiconstant Coefficients and with a Lag—E. B. Lebedeva and S. N. Shimanov 823 1598
Minimal Sets and Lyapunov Stability in Partially-Ordered Dynamic Systems —A. M. Stakhi 828 1608
Theory of Generalized Characteristic Numbers—L. A. Chelysheva 832 1616
The Problem of the Center for Differential Equations with Discontinuous Right Sides—V. A. Lunkevich 837 1625
Uniform Asymptotic Stability of Nonlinear Systems of Difference Equations with a Small Parameter in the First Differences—A. I. Klimushev. 845 1640
Optimal Construction of the Set of Differential Equations which Have a Prescribed Integral Curve—V. D. Furasov 849 1648
The Cauchy Problem for a One-Dimensional Hyperbolic Equation of Arbitrary Order with Data Given on the Degeneracy Line—A. B. Nersesyan 854 1658
First Boundary Value Problem for an Equation of Mixed Type—M. M. Smirnov 857 1663
The Exterior Boundary Value Problem for an Operator which Can Be Split into Helmholtz Operators—I. V. Subeika 859 1667
Distribution of the Eigenvalues of a Singular Operator—Yu. N. Sudarev 864 1676
Asymptotic Behavior of the Spectral Function of Ordinary Differential Operators on a Finite Interval—G. I. Bass 867 1683
Improper Problems for Equations of Convolution Type—Yu. T. Antokhin 871 1691
Solving Discrete Problems which Reduce to the Riemann Problem—B. I. Rukhlin. 879 1705
Dirichlet Problems for Von Karman Type Equations—Yu. I. Zharii and A. S. Yurchenko 883 1713

BRIEF COMMUNICATIONS
Periodic Solutions of a System with a Small Parameter—V. V. Amel'kin 887 1720

SOVIET MEN OF SCIENCE
Sergei L'vovich Sobolev (on His Sixtieth Birthday)—A. A. Dezin, N. P. Erugin, and L. D. Kudryavtsev. 889 1724

Volume 4, Number 10 October, 1968

Principle of Comparison with the Lyapunov Vector Functions. II—V. M. Matrosov . . . 893 1739
Some Singular Boundary Value Problems for Ordinary Nonlinear Second Order Differential Equations—I. T. Kiguradze 901 1753
Trigonometric Series Whose Sum is a Continuous Function Unbounded on the Real Axis—a Solution of an Equation with Deviating Argument—P. S. Gromova and A. M. Zverkin 911 1774

	Engl./Russ.	
The Investigation of Nonautonomous Systems of Second-Order Differential Equations by Means of Differential Invariants—I. A. Pavlyuk	917	1785
Origins of Boundedness Criteria of Solutions of the Equation $A_0(t)x'' + A_1(t)x' + A_2(t)x = 0$—M. B. Kudaev	926	1801
Existence of Solutions of Ordinary Nonlinear Differential Equations with Linear Boundary Conditions—G. N. Zhevlakov, Yu. V. Komlenko, and E. L. Tonkov	933	1814
Behavior of Periodic Solutions of Second Order Systems of Differential Equations with Polynomial Right Sides—Yu. V. Churin	937	1821
Singular Points for Two-Dimensional Systems of Equations of Total Differentials in Four-Dimensional Space—R. G. Dymanov	944	1835
Analytic Properties of Scattering Amplitude in the One-Dimensional Case. I. —M. V. Fedoryuk	948	1842
The Problem of Conjugate Equations of Hyperbolic and Parabolic Types—V. I. Korzyuk	955	1854
Smoothness of Heat Potentials. VI. The Special Heat Potentials P and Q on Surfaces of Type $\Pi^{m+1,a,\frac{a}{2}}_{2m+1,1,\frac{1+a}{2}}$ and $\Pi^{m+1,1,\frac{1+a}{2}}_{2m+3,a,a/2}$—L. I. Kamynin	962	1867
Theory of MacDonald Integrals. III. New Representation of MacDonald Integrals —A. A. Tuzhilin	975	1892
Asymptotics of Solutions of a Boundary-Value Problem for Second-Order Elliptic Equations in Thin Domains—M. G. Dzhavadov	980	1901
Stable Solvable Extensions of Linear Systems of Partial Differential Operators with Constant Coefficients in a Bounded Domain—I. V. Gel'man	985	1910
An Analogue of the Inverse Problem of Scattering Theory for a Non-Self-Adjoint Operator. II—V. A. Blashchak	988	1915

Volume 4, Number 11 November, 1968

Problems Concerning the Existence of a Center—K. S. Sibirskii	995	1931
Solvability of Boundary Value Problems with the Bernshtein Condition —Yu. A. Klokov	999	1939
Methods of Approximating Trajectories to a Singular Point—E. A. Nazarov	1005	1949
Degenerate Linear Differential Equations, II—V. P. Glushko	1009	1956
Stability of Volterra Equations—Z. B. Tsalyuk	1015	1967
Stability of Variable-Structure Automatic Control Systems—N. G. Yarovoi	1022	1980
Isochronicity Conditions for Systems of Two Differential Equations —I. I. Pleshkan	1028	1991
Stability Characteristics of Linear Systems with Variable Coefficients —N. F. Trubitsyn	1030	1994
The Center and Focus Problem—A. P. Sadovskii	1034	2002
Stability of Motion for Continuous Finite Perturbations—N. F. Kirichenko	1038	2010
Existence of Solutions of a System of Differential Equations on the Entire Line, and the Lyapunov Function—A. A. Yushchenko	1040	2015
Stability of Systems with Aftereffect in the Critical Case of Two Zero Roots —V. P. Prokop'ev	1047	2027
Smoothness of Heat Potentials. VI. Special Heat Potentials P and Q on Surfaces of Type $\Pi^{m+1,a,\frac{a}{2}}_{2m+1,1,\frac{1+a}{2}}$ and $\Pi^{m+1,1,\frac{1+a}{2}}_{2m+3,a,\frac{a}{2}}$ —L. I. Kamynin	1051	2034
Equations of the First Kind—A. G. Ramm	1062	2056
The Solution of a Nonlinear Problem in the Dynamics of the Boundary Layer of the Atmosphere—M. I. Ruzin	1065	2061
A System of Equations in the Theory of the Boundary Layer for the Stationary Flow of an Incompressible Fluid—T. D. Dzhuraev	1069	2068

Approximate Solution of Linear Integral Equations of Mixed Type with a Lagging Argument by Means of a Variant of Sokolov's Method—K. B. Barataliev 1077 2084
The Solution of a Class of Boundary Value Problems with Mixed Boundary Conditions for a Domain of Complex Form—O. N. Litvin, V. L. Rvachev, and V. K. Yarmolyuk 1080 2089
The Solution of Volterra Type Integral Equations by a Method of the Runge-Kutta Type—A. N. Lomakovich and A. P. Vasilenko 1083 2094
Boundary-Value Problems for Metaharmonic Equations of Higher Orders—I. G. Lobodzinskaya 1088 2103
An Approximate Method of Solving the Spatial Dirichlet Problem—Yu. A. Dment'ev ... 1092 2111

Volume 4, Number 12 December, 1968

The Construction of Lyapunov Functions—E. A. Barbashin 1097 2127
Optimal Evasion in a Differential Game—N. N. Krasovskii and A. I. Subbotin 1113 2159
Method of Local Sections in the Theory of Optimal Processes—V. G. Boltyanskii 1117 2166
A Class of Probability Characteristics of Forced Solutions of Linear Differential Equations with Constant Coefficients—Yu. I. Alimov 1127 2184
Strict Error Estimates of Integration of a Differential Equation by Störmer's Method, I—L. Ya. Adrianova 1133 2195
The Number of Operations in Frommer's Method of Investigating Singular Points of a Differential Equation with Fractional, Quasi-Analytical Right Hand Side—T. V. Stepanova 1140 2208
One Method for Investigating Singular Problems—Yu. S. Shatalov 1144 2215
The Mutual Disposition of Separatrices—N. I. Avdonin 1152 2230
Direct Methods in the Qualitative Spectral Analysis of a Nonself-Conjugate System of First-Order Differential Equations. II—V. V. Martynov 1159 2243
A Partially Characteristic Boundary Value Problem for a Particular Type of Partial Differential Equations. I—N. I. Yurchuk 1167 2258
Regularization of Nonlinear Partial Differential Equations—V. V. Vasin 1173 2268

BRIEF COMMUNICATIONS

Erroneous Formulas of Integral Transformations—N. M. Il'enkov 1177 2275
A Type of Differential Equation in Banach Space—P. E. Sobolevskii 1179 2278
Singular Cycles of the Equation $dy/dx = P(x, y)/xy$, Where $P(x, y)$ Is a Quadratic Polynominal—L. A. Cherkas 1181 2281
Singularities of Solutions of an Ordinary Differential Equation—S. G. Kondratenya ... 1184 2286
